Application Note

Updating the P5000i Firmware with FiberChekPRO™

The P5000i makes it fast and easy to certify that every connection in your network is clear and optimized. This intelligent fiber microscope removes the guesswork from fiber inspection and provides reliable and objective PASS/FAIL analysis of the fibers.

At VIAVI, we continually innovate our field inspection products to exceed your fiber inspection needs. We recommend routine firmware updates to ensure your P5000i is equipped with the latest and greatest. This application note will show you how to view and update the firmware on your P5000i using the FiberChekPRO software.
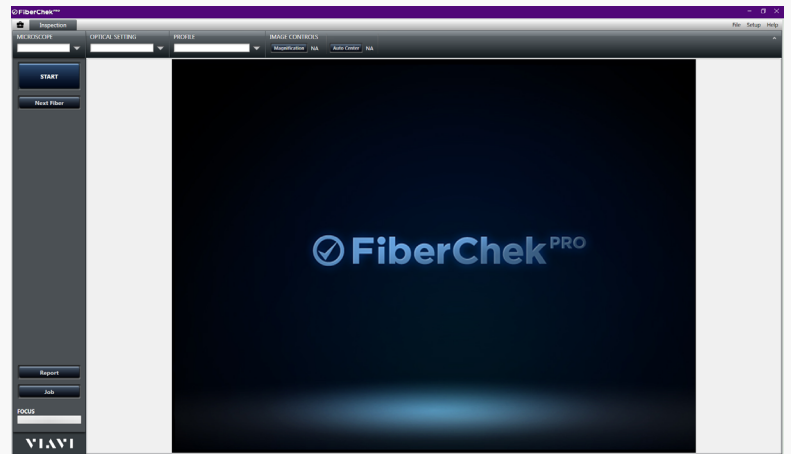

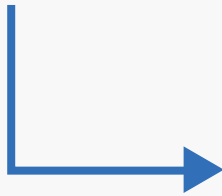

Requirements

- P5000i

- Personal Computer

- FiberChek^{PRO} software

- Internet Connection

## Contents

Getting Started

1 Open the FiberChekPRO software on your PC

**2** Connect the P5000i to your PC via USB

✔ You are now ready to view and update the firmware on your P5000i
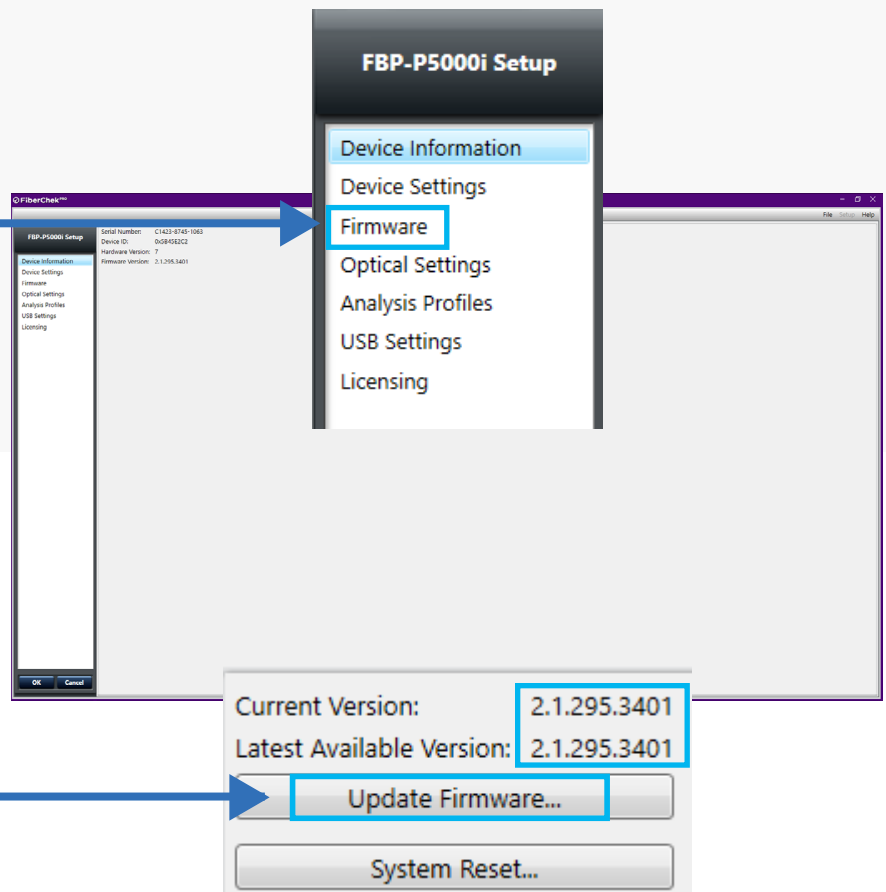

Viewing & Updating the P5000i Firmware

1 Click Setup in the top right

2 Click FBP-P5000i

FiberChekPRO Setup...

FBP-P5000i...

3 Click Firmware on the left

FBP-P5000i Setup

Device Information
Device Settings
Firmware
Optical Settings
Analysis Profiles
USB Settings
Licensing

4 Compare the Current Version with Latest Available Version. If different, click Update Firmware

Current Version: 2.1.295.3401
Latest Available Version: 2.1.295.3401

Update Firmware...

System Reset...

Viewing & Updating the P5000i Firmware

5 Click OK to update the P5000i firmware

⊘ Firmware Update ✕

Firmware update successful. Click "OK" to exit setup and reboot the device.

OK
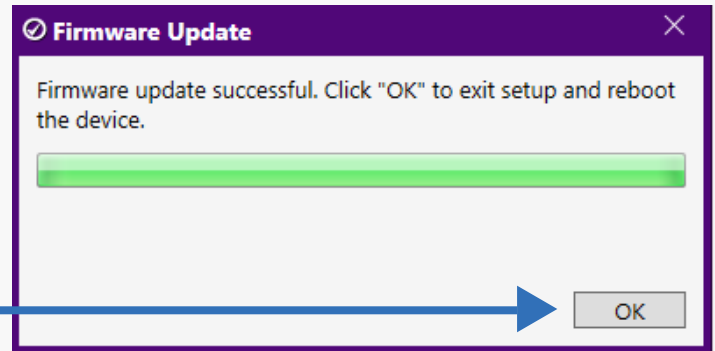

After clicking OK, the FiberChekPRO software will update the P5000i with the latest firmware. Once updated the Current Version of firmware will match the Latest Available Version as shown here.

Current Version: 2.1.295.3401
Latest Available Version: 2.1.295.3401

FiberChekPRO will then reset and return to the home screen
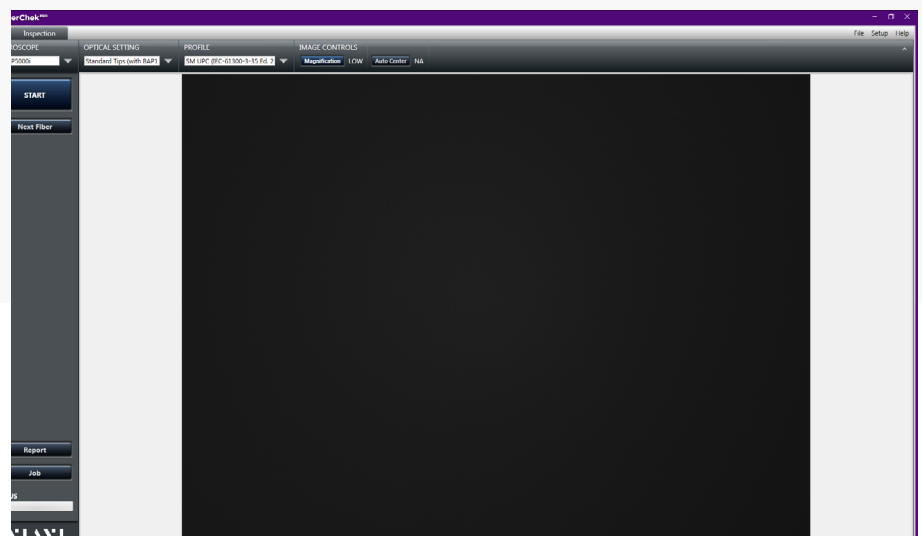

This concludes the P5000i firmware update process
